how to get into the metaverse

Volume: 2,900/mo | CPC: \$1.11 | Competition: 0.09 |  ★

My first choice for you as a primary keyword for your main page – if content applicable - would be '**how to get into the metaverse**' because of relevance, volume, and lowest competition across all metrics. A number 1 ranking page for this keyword could get **1,224 hits/mo.** (42% of total searches ).

I would also create more sub-pages with titles equivalent to other keywords on the list you like and SEO each one for each keyword. Done properly – with more top-ranked pages - can increase your total hits per month.
